THE MAGIC OF UPCYCLING

Once tarnished and tatty, the transformation of this unusable fan cover is nothing short of brilliant. Challenging traditional weaving skills, natural fibres found in the lush rainforests of Sarawak are handwoven through the refurbished metal mesh. A painstaking process that takes weeks from harvesting and processing the material to weaving this finished piece.

Dimension: 27" (Diameter) x 3" (Depth)
17" (Diameter) x 2.5" (Depth)

Material: Polypropylene box strap, jungle fibre and rattan.

*various patterns and colours available
